

Term	Definition
Administrative Liaisons (ALs)	Colleges, schools, and administrative units with faculty have been assigned an Administrative Liaison for UGA Elements. The Administrative Liaisons will have the latest information about Elements for their specific units. You can locate your AL at: http://elements.uga.edu/contact . If you do not have an AL assigned to your unit, contact elements@uga.edu .
Affiliations Map	Map coloring countries by number of affiliations. 
Altmetrics	Web application that helps you see all of the attention surrounding your papers 
 ArXiv Database	Repository of Electronic preprints, known as e-prints, of scientific papers in the fields of mathematics, physics, astronomy, computer science, quantitative biology, statistics and quantitative finance
$\text{BibT}_\text{E}\text{X}$ BibTeX	Reference management software for formatting lists of references. BibTeX makes it easy to cite sources in a consistent manner, by separating bibliographic information from the presentation of this information.
 CiNii EN Database	A database service which can be searched with academic information of articles, books and journals

Term	Definition
 CiNii JP Database	Database from the National Institute of Informatics consisting of journal articles and citations to articles from scholarly journals, magazines, and university bulletins published in Japan
Citations	Citations is the number of articles or publications that refer to a recipient article. The citations data visible in <i>UGA Elements</i> is also used in the reporting elements of the system, and is sourced from Web of Science and Scopus
Co-authorship at UGA Diagram	 <p>A list of co-authors within UGA</p>
Elements	The term <i>Elements</i> refers to the individual units of functionality within the system. The main modules in UGA Elements are for teaching activities, professional activities, grants, and publications.
 CrossRef Supplementary Search	CrossRef is an association of scholarly publishers that develops shared infrastructure to support more effective scholarly communications. Their citation-linking network today covers over 74 million journal articles and other content items (books chapters, data, theses, technical reports) from thousands of scholarly and professional publishers around the globe.
 DBLP Database	Computer Science Bibliography

Term	Definition
<p>Delegate</p>	<p>A user (normally an assistant) nominated by another user (often a senior academic) who has the right to impersonate this other user. Using their own login, they can gain access to the system as if they are logged in as the impersonated user. Delegates also receive copies of the email correspondence the system sends to the user(s) they can impersonate.</p> <p>Some UGA Schools/Colleges/Units will not allow delegate assignments. Please check with your Administrative Liaison. A list of ALs is located at: http://elements.uga.edu/contact.</p> <p>If you do not have an AL assigned to your unit, contact Julie Noelke at: jnoelke@uga.edu</p>
<p>Endnote</p> 	<p>A reference management software tool made by Thomson Reuters.</p>
 <p>Europe PubMed Central Supplementary Search</p>	<p>Europe PubMed Central is an information resource for biomedical and health researchers. Their search provides over 30 million + abstracts and 3 million + full text research articles from PubMed and PubMed Central.</p>
 <p>Google Analytics</p>	<p>A free service that allows for monitoring of take-up and usage of UGA Elements</p>
<p>My Grants</p>	<p>A module to store the details of research grants, enabling relationships to be created between grants and users, publications or other elements in the system. Once created, new grant elements are available for relationships with other elements to be created by users.</p>
<p>Group Administrator Role</p>	<p>An Administrator with rights over a certain user group. In general, Group Administrators only have permissions that enable changes to be made to the membership of their groups and can create roles such as Statisticians and Research Managers. However, Administrators for Primary Groups can also change some of the module settings for their group.</p>

Term	Definition
Impersonate	<p>Delegates, Group Administrators, System Administrators, Research Managers, Verification module users have the ability to impersonate certain other users and manage their records. The impersonation tool is found under 'home' header. Users acting on behalf of another in this way can interact with the system as though they are the other person.</p> <p>Note: Some UGA Schools/Colleges/Units will not allow delegate assignments. Please check with your Administrative Liaison (AL). A list of ALs is located at: http://elements.uga.edu/contact.</p> <p>If you do not have an AL assigned to your unit, contact elements@uga.edu</p>
My h-index	 <p>The h-index is calculated regularly, by source from your claimed publications citation counts.</p>
My Profile	 <p>Your user profile is available to all users in the system. It contains your photo, email address, your links at UGA, your co-authors and a list of your elements. Publications, Grants and Professional Activities are grouped into recent, favorite and all tabs.</p> <ul style="list-style-type: none"> • <i>Overview</i> • <i>Experience</i> • <i>Education</i>

Term	Definition
	<ul style="list-style-type: none"> • <i>Language competencies</i> • <i>Addresses</i> <p>Your elements:</p> <p><i>Publications, Professional Activities, Teaching Activities and Grants are grouped into recent, favorites and all records</i></p> <p>Publications history Chart</p> <p><i>Column chart showing publications per year</i></p>
My Search settings	<p>A group of settings that specify the search terms used by the synchronizer to search the online databases for publications by a particular user. Each user has access to edit their own search settings. In addition, Group Administrators can impersonate all the users in their groups and assist them and their delegates by editing their search settings and making their search more accurate.</p> <div data-bbox="483 1197 880 1455">  </div> <div data-bbox="483 1486 976 1736"> <p>My Search Settings</p> <p>Default search terms</p> <p>Name variants: "MALMBERG RL" </p> <p>Addresses: [none]</p> <p>Start date: [none]</p> <p>Keywords: [none]</p> <p>Journals: [none]</p> </div>

Term	Definition
 <p>Multi-Search</p>	<p>Multi-Search is the University of Georgia Libraries' implementation of the EBSCO Discovery Service.</p> <p>Some of the most popular databases that are currently part of Multi-Search include:</p> <ul style="list-style-type: none"> • Academic Search Complete • Elsevier ScienceDirect • ERIC • JSTOR • PsycINFO • Medline • MLA Bibliography • Newspaper Source Plus • Project Muse • Sage Reference Online • Web of Science • <p>http://www.libs.uga.edu/multisearch/index.html</p>

Term	Definition
Navigation Panel	 <p>This panel provides links to all of your activities arranged in elements. This is also where you will find the link to import publications from an endnote or Bibtex library. It also provides a link to update your publication search settings.</p>
	ProQuest includes world's largest collection of dissertations and theses;
My Professional Activities	This module collects information about professional activities and measures of esteem, such as awards, membership of professional bodies and external committees.
Project Team UGA Elements	The Project Team is the UGA Elements implementation team.

Publication Synchronizer	<p>The Elements “synchronizer” searches a number of online publication databases using search criteria that include your name and your connection to UGA. When the synchronizer finds a publication that appears to be yours, it imports bibliographic details automatically and notifies you via email so that you can claim or reject it. You have the ability to fine-tune the search criteria used by the synchronizer. You are also able to add manual records of publications not found in online databases.</p>																
 PubMed Database	<p>Comprises more than 24 million citations for biomedical literature from MEDLINE, life science journals, and online books. Citations include full-text content</p>																
 RePEc	<p><i>Research Papers in Economics</i> (RePEc) is a decentralized bibliographic database of working papers, journal articles, books, book chapters and software components.</p>																
Roles	<p>This is a general term applied to different sets of permissions and abilities within <i>UGA Elements</i>. Roles include User, Research Manager and Statistician as well as the various kinds of Administrators.</p>																
 SSRN (Social Science Research Network)	<p>*The Social Science Research Network (SSRN) will be added to UGA Elements in the near future. It is a network devoted to the rapid worldwide dissemination of social science research and is composed of a number of specialized research networks in each of the social sciences.</p>																
Search Terms	<p>Publication searches take place periodically during the day and will include you every time your search settings are updated. You can improve the accuracy of</p>																

Term	Definition
	<p>your search by going to 'search settings' under Publications in the 'my elements' menu. Search terms for each online database can be set individually.</p> <p>Addresses: restrict search term by institutional affiliations Name Variants: add variants of your published names Keywords: restrict search with keywords Start date: restrict search from a date Journals: restrict search to certain journals Online database ID's: fetch publications by proprietary ID</p> <p>Note: For information on calibrating your search settings, go to Search settings</p>
Statistician (role)	A role that gives a user permission to access data about the members of a group.
Synchroniser	The 'synchroniser' is a system process in UGA <i>Elements</i> that carries out an online search. It takes users from a queue, runs their details through the online databases and places the results into the 'pending publications' section of their records, ready for them to check and approve.
Symplectic	<p><i>Symplectic is the company that developed Elements-a software company founded in in London (2003) who specialize in developing, implementing and integrating research information systems for universities and research institutions around the world.</i></p> <p>The Elements platform is an application and database that allows institutions to collect, contextualize, report on and profile publicly the research, scholarship, and professional activities of faculty, staff, and students. It is built on advanced software infrastructure that will address fundamental shortcomings of the current FAR.</p>
 WorldCat	WorldCat is the world's largest network of library content and services. WorldCat.org lets you search the collections of libraries in your community and thousands more around the world.
 WoS (Web of Science Lite)	WoS Lite is a web service that allows for real-time lookup of Web of Science source record information against Web of Science, using institution subscription entitlements.

Term	Definition
	Note: Most UGA publications will be found in this database.
Working Group UGA Elements	Configuration and implementation of UGA Elements is being managed by a Working Group that includes members from the Offices of Academic Planning, Enterprise Information Technology Services, Institutional Research, Vice President for Research, Vice President for Public Service and Outreach in addition to UGA Libraries, and select school/college reps. The members of the group can be found at: http://elements.uga.edu/about
